

TRANSTANK TACTICAL

Transportable container tank

4,887 US GAL

The ultimate in flexibility, the TransTank Tactical is a fully transportable, 110% self banded (double-wall) fuel storage container that was designed for bulk fuel transfer and emergency fuel supply. Built as a 20ft ISO container, the TransTank Tactical ships fuel by road, rail or sea and can dispense using the on-board pump. Suitable for JP8, aviation fuel, diesel fuel or gasoline.

FEATURES

TRANSPORTABLE FULL

Approved for transport of fuel; by road, rail or sea.

ACCESS HATCH

Easy access to inner tank for routine maintenance and cleaning.

CYLINDRICAL INNER TANK

Cylindrical inner tank to comply with transport regulations.

OVER WATER CARTRIDGE

Letter container with floating hose for transporting fuel across water.

STACKABLE

Container design allows stacking even when full, reducing storage space when required.

LOCKABLE EQUIPMENT CABINET

Lockable equipment cabinet that secures all ports and fittings, as well as captures all spills and drips. Secure hose access enables fueling while cabinet is locked.

110% SECONDARY CONTAINMENT

In case of inner tank rupture, interstitial space is sufficient to contain spillage. No need for spill berms.

READY FOR

FUEL TRANSPORTATION

Facilitates movement of bulk fuel by road, rail, or sea using military or commercial transportation vehicles. The over water cartridge also allows fuel to be transported across water, without paying excessive hourly rates for air transport. This reduces airtime usage for fuel, and increases usage for other essential resources.

SHIP TO SHORE

Ideally suited to be transported by sea aboard LSV's, OSV's, the TransTank Tactical can be utilized to pump fuel from Ship to Shore in conjunction with ABLTS (Bulk Liquid Transfer System).

REFUEL ON THE MOVE

Provides bulk fuel for convoy refueling exercises and allows for rapid deployment/ repositioning without needing to empty the tank of fuel.

MODELS AND CAPABILITIES

SPECIFICATIONS	TCT5000
Capacity (Nominal)	4,887 USG
Dimensions (L x W x H)	240 x 96 x 96 in 20 ft LOW CUBE CONTAINER
Weight (Empty)	14,330 lbs
Design Approvals	US DOT, ADR, IMDG, RID, UL142
